PROFESSIONAL SUMMARY

Software Engineer who builds backend systems and the automation that runs on top of them. 2+ years across Python and Node.js APIs, SQL databases and production integrations, from **20+ REST APIs** for a multi-location KFC inventory platform to AI voice and WhatsApp automation on Python, n8n, Docker and webhooks. Developer-first: when a workflow tool hits its limit, I write the service.

EXPERIENCE

Executive – Automation **08/2026 – Present**

Malkansview Training Institute · Mumbai

- Built AI voice sales agents and WhatsApp confirmation agents as Python services orchestrated by n8n, integrating ElevenLabs, Exotel and WATI via production webhooks.
- Wrote Python REST and webhook integrations across **6+ platforms** (incl. Pabbly, Google Reviews, Trustpilot) on Docker.

Software Developer — Backend **11/2025 – 03/2026**

Datrax Services Pvt. Ltd. · Deployed at Sapphire Foods India Ltd. (KFC Operations) · Mumbai

- Delivered D-MPNC, a production inventory platform for multi-location KFC restaurants, by designing **20+ FastAPI REST APIs** for FIFO ledgers, batch tracking and forecasting.
- Automated expiry handling with state-transition engines and powered reporting with SQL Server stored procedures and indexing.

Software Engineer Intern — Backend **12/2024 – 11/2025**

Translogistics Pvt. Ltd. · Mumbai

- Built secure, high-throughput Node.js REST APIs and third-party integrations for a logistics CRM, and reduced query latency by tuning PostgreSQL schemas, indexes and query plans.

Software Engineer Intern — IoT & Backend Systems **07/2024 – 12/2024**

Vighnesh.inc · Mumbai

- Improved IoT data processing accuracy by **30%** by building ingestion handlers with stricter validation and fault-tolerant error handling.

PROJECTS

Memora — AI Handwriting Notebook for iPad (Freelance Client Project) **09/2026**

- Built a native iPad notebook (in client testing) that turns handwritten notes into a daily AI briefing via PencilKit and on-device OCR.
- Kept AI summaries reliable and cheap via a Cloudflare Worker gateway: one hashed request per day, **3-model** fallback.

Tech: Swift, SwiftUI, PencilKit, Vision, SwiftData, Cloudflare Workers, Gemini, Groq

BorrowBox — Peer-to-Peer Borrowing Marketplace **09/2026**

- Built a live P2P lending marketplace and prevented double-booking by running a **9-state** borrow lifecycle inside MongoDB transactions, with Zod validation and instance-safe rate limiting.

Tech: Next.js, TypeScript, MongoDB, Better Auth, Zod, Cloudinary

Nidsscrochet.in — Live E-Commerce Platform (Freelance Client Project) **10/2025 – Present**

- Launched a live store for a Mumbai crochet business with Razorpay payment verification, JWT accounts and order tracking.

Tech: Next.js, MongoDB, Razorpay, Cloudinary, Vercel

Remi — Offline Voice-First Reminder App for Android **09/2026**

- Built voice reminders that work with no internet by chaining whisper.cpp speech-to-text, a rule-based parser, on-device Gemma 3 1B and a cloud LLM fallback, with every output validated by Zod schemas.
- Made alarms survive reboots, timezone/DST changes and Doze with a native Kotlin engine (SQLite, AlarmManager) and a Next.js + PostgreSQL sync backend, covered by **155 automated tests**.

Tech: React Native, TypeScript, Kotlin, whisper.cpp, Gemma, Groq, Gemini, Next.js, PostgreSQL

MarketPulse AI — Multi-Agent Equity Research Analyst **2026**

- Generated source-cited equity research reports with a **6-stage** LangGraph agent pipeline with self-critique and claim verification.

Tech: Python, LangGraph, FastAPI, PostgreSQL, Gemini API, Tavily

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Kotlin, Swift

Backend: FastAPI, Node.js, Express.js, Next.js, Cloudflare Workers, REST APIs, WebSockets, JWT, OAuth2

Automation: n8n, Pabbly, Webhooks, Event-Driven Workflows, WATI, Exotel, ElevenLabs, Razorpay

Data & AI: PostgreSQL, SQL Server, MongoDB, Redis, SQLite, LangGraph, RAG, LLM Agents, Gemini, Groq

Infra & Tools: Docker, AWS, Google Cloud, GitHub Actions, Vercel, Git, Agile/Scrum

EDUCATION

Thakur College of Engineering & Technology (TCET), Mumbai — B.E. Electronics & Computer Science **Graduated 05/2026**
